**Subject:** Site Assessment Projects in Knoxville, Tennessee

Hi Donna,

Beth indicated that you have taken over site assessment projects in Tennessee. I am following up with my phone message to find out whether you have had the time to review the reports submitted to EPA at the end of August 2006 for the following sites:

Smokey Mountain Smelters (TTEMI-05-003-0001)  
Dixie Barrel and Drum (TTEMI-05-003-0002)

Beth also indicated that Dixie Barrel and Drum most likely will be a no further action, and further technical support might be needed for Smokey Mountain Smelters.

We also were assigned Joyner Scrap Yard (TTEMI-05-003-0003) located in Kingston, Tennessee. I spoke with Lee Barron, the TDEC project manager for Joyner Scrap Yard, who indicated that the project is still on hold under their program.

Please give me a call at your convenience to discuss these projects. I also would like to discuss any projects that you may have on the horizon with which you foresee needing START support.

Thanks and have a great day.
